

ALU-GARD

SECURITY SCREENING SYSTEMS

The All-Aluminium security screening solution for Australian conditions. ALU-GARD is a perforated aluminium sheet retained in an extruded aluminium frame.

ALU-GARD not only provides security, clarity of vision and strength, it is also corrosion resistant and looks great.

ALU-GARD Design

ALU-GARD utilises a strong (2mm thickness), non corrosive aluminium sheet that is perforated and powder coated to exacting standards. The sheet is retained in a frame with our riveted aluminium wedge retention system. The resulting screen is strong, extremely resistant to corrosion and provides clarity of vision.

The Complete Range

ALSPEC now offers the complete range of screening systems from our top of the range INVISI-GARD Stainless Steel Security Screens, through to ALU-GARD, Federation Cast Panels, Diamond Grilles, one way vision mesh, fibreglass and aluminium insect screen and all the associated accessories.

For a history of great service and quality built products when considering an aluminium screen door system, there's only one place that has all the solutions - ALSPEC.

Custom Built

All ALU-GARD products are custom built, made to measure to suit your exact requirements.

ALU-GARD Security Screens are suitable for a wide range of residential and commercial applications including the following:

- Hinged Doors
- Sliding Doors
- Security Window Screens
- Balustrade
- Fencing

All fixings are covered with an adaptor ensuring a smooth and clean finished product.

Choice of Stylish Colours

With ALU-GARD products, matching the colour to existing door and window frames is not a problem. A full range of powder coated colours along with anodised finishes are readily available from your ALU-GARD dealer.

ALU-GARD Test Performances

The ALSPEC ALU-GARD Screen Door System has been tested in an approved NATA test rig to Australian Standards AS5041-2003 for hinged security doors.
